Coastal Bend Science Fair
Extra Credit Opportunity (5 pt)

The 22nd annual Coastal Bend Science Fair will be held on campus on May 1st of 2010. According to pre-registration it is expected to have 700 projects. Majority of projects will be in Physical Science category.

As right now we are lacking judges in this category for both K-2 and 3-5 grade groups.

Every year the majority of judges come from TAMUCC students and I am asking you to forward this message to your graduate students or students organizations, or just students that are qualified for judging.

Volunteer for judging can register on-line at: http://cbsf.tamucc.edu/register.html

Please register as soon as possible, so that we can organize the event in a timely fashion.

Thank you!

Galina Reid
